When diagnosed early, blindness from glaucoma is almost always preventable. Those who are at increased risk for glaucoma are: 1) people over 40 years of age; 2) those with a family history of glaucoma; and 3) those who have sustained an eye injury. **GLAUCOMA SCREENING AND VISUAL ACUITY** testing (near and distance vision) for all employees will be available on a walk-in basis (no appointment necessary) on the following dates:

JUNE HEALTH EDUCATION AND WELLNESS PROGRAM—POISONOUS BITES, PLANTS AND STINGS: Living in Florida includes trips to the beach, picnics, fishing, camping trips and water, recreational, and sports activities of all kinds. It also means being aware of the hazards in nature and the environment. Florida's wildlife and vegetation can be both beautiful and dangerous. The number and variety of bugs is staggering. There are 67 species of mosquitoes, black widow and brown recluse spiders, 5 species of poisonous snakes, fire ants and stinging caterpillars, as well as alligators, dangerous marine life, poisonous trees, plants, and weeds. The best way to protect yourself and your family is knowledge. Be aware of the hazards, know how to avoid them when possible, and learn what to do if you are bitten, stung, contact or ingest a poisonous plant. June's packet will include information on animals, insects, marine life, and plants that can harm you, tips on prevention and first aid if you do become a victim. Packets will be available at all medical facilities in June or upon request to Carol Roth, BOC-005, 867-3414. (JJ-C)

An informative Equal Employment Opportunity Program poster with counselors' identities and further complaint information is on all KSC Official Bulletin Boards. EEO Counselors are trained to inform you of your rights, answer your questions, and can do limited fact finding into your allegations.
